THE AUSTRALIAN COMPUTER SOCIETY REMUNERATION SURVEY REPORT

The Australian Computer Society Remuneration Survey Report contains salary information based on the results of the ACS Remuneration Survey, the largest survey of computer professionals salaries in Australia. Conducted annually by Professionals Australia (formerly APESMA), the survey has become the benchmark for the remuneration of computer professionals in Australia. Each report is based on responses received by over 1900 computer professionals.

Purchasing the Australian Computer Society Remuneration Survey Report also entitles you to access salary information online via the Professionals Australia website.

Note: Professionals Australia or ACS members cannot purchase the Report using their membership ID to buy at the discount price on behalf of any third party, and can only purchase one copy of the Report for themselves at the discount price. Any third party or subsequent orders will be charged at the normal corporate rate.

I enclose a personal cheque payable to ‘APESMA’ (note our bank account is still in the name of ‘APESMA’) or please debit from Visa Mastercard Amex Diners
